

Bring your curiosity to life.

Trainee Global Inhouse Consulting

The Global Graduate Program (GGP) is the company's career accelerator for high potential graduates who are early in their careers. During the 24-month program, you will experience a mix of strategic management consulting projects as well as operational rotational stations in the healthcare, life science, and performance material divisions.

In the first year, you will be working in the Inhouse Consulting team, where you will have the opportunity to tackle challenging problems under the guidance of experienced consultants. Inhouse Consulting projects focus primarily on strategy, growth, as well as operational optimization, and our internal clients are typically senior-level executives within the company. On average you get to work on 5 to 10 projects during your first year to gain a good knowledge of the company and maximize your exposure to different subjects. You will also participate in targeted professional trainings as well as our coaching & mentoring program. In the second year, you will be working on several assignments within our divisions: Healthcare (Biopharma and Consumer Health), Life Science, Performance Materials (e.g. Liquid Crystals, OLED, Pigments) and Group Functions (e.g. HR, Finance, Innovation, IT). You'll get the chance to gain in-depth knowledge of the day-to-day operations of different functions and on topics of your interest, such as marketing, medical, R&D, production, strategic management, and venture capital among others. Each assignment will last approximately three to six months, with one international assignment. After successfully completing this program you will move into an exciting role within one of our businesses.

Who you are:

- ◆ Master's degree (PhD is a plus) in science or engineering AND a secondary qualification in business (e.g. through business degrees or classes, extra-curricular activities and/or internships experience) or vice versa OR business-related degree with a distinct supply chain focus
- ◆ Outstanding academic achievements
- ◆ Ideally two demanding consulting or industry-related internships & international experience
- ◆ Strong analytical skills, profound knowledge of MS Office
- ◆ English skills essential, German is a plus

Next start date: February / March 2019, several positions available

Location: Darmstadt, Germany
